

## Instructions For Use

Easy Riser clearly showing the Seat Belt channel

### The picture above left shows the Easy Riser in-situ

- Position the Easy Riser in your preferred rear seat position in the car
- Run the lap belt of the seat belt through the seat belt channel at the back of the Easy Riser to secure it in place
- Attach the security strap to either the lap belt or the diagonal of the seat belt
- Connect the clip to your pet's harness
- It may suit smaller pets to connect the security strap to the lap belt

**For safety reasons please connect to a suitable harness and NOT to the collar.**

### Care Instructions

To wash cover, remove and follow instructions on care label. **Do not wash at high temperature or use bleach.** Refitting is best done with the cover inside-out starting with the arms first, then the back, pull into position and re-shape.
